

Printing in Hspice

Open up **Awaves**

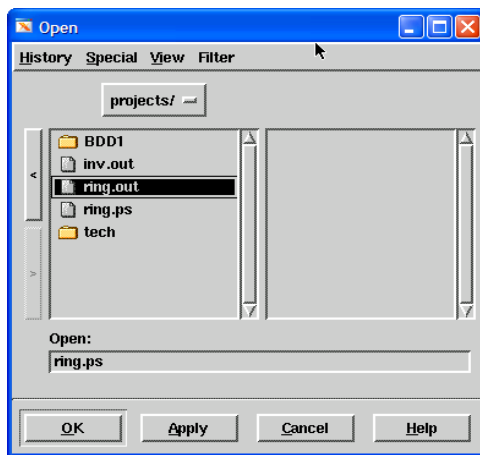

goto the **menu** → **tools** → **print**

Then check the '**File**' and '**PS**' button and in the Print To option.
And also, check the '**Show Date & Time**' button.

You can **check any other options if you want**.

Then click **Print** .

Now you can type the ps file name in your working directory.

type **gv ring.ps**
(where ring.ps is the file name of your Hspice result)

It should now print
